INTRODUCTION: Regional Economies, Industry Sectors and Clusters

Any industry exists within a web of relationships that relates to its supply and distribution chain. The companies in these industries use inputs such as raw materials, energy, and labor to provide goods and services which ultimately are delivered to their consumers. These supply and distribution networks operate without respect to geographies and jurisdictions. Individual industries become a part of industry clusters when multiple companies from related industries gather in the same or adjacent areas or regional economies where they can take advantage of common elements, such as labor, which is especially critical for our purposes. WIOA underscores the idea that economic and workforce development planning and programming is most effectively done on a regional basis.

Every regional economy consists of a mix of industries that play a greater or lesser role in the overall number of jobs that exist and in the overall value of goods and services produced. Economists speak of jobs as employment and the value of goods and services as output. Statistics related to employment and output allow researchers to compare growth in an economy over time (past or future) as well as to compare our economy to other regions around the country.

When we add the workforce development component to an industry cluster in a regional economy, our strategy development requires us to identify those industry clusters, occupations, and career pathways that are most crucial to growing the regional economy, and that will therefore provide the optimum mix of employment opportunities.

To make valid comparisons, researchers need definitions that are consistent. This study uses 22 industry clusters that were previously defined and used extensively around the country in helping workforce, economic development, and educational entities identify priority industry clusters. These industry clusters include:

<table>
<thead>
<tr>
<th>Agriculture Production</th>
<th>Construction</th>
<th>Metals and Metal Fabricating</th>
</tr>
</thead>
<tbody>
<tr>
<td>Food Processing</td>
<td>Chemicals, Rubber, and Plastics</td>
<td>Lumber and Wood Products</td>
</tr>
<tr>
<td>Communications and IT Manufacturing</td>
<td>Communications and IT Services</td>
<td>Textiles</td>

</tr>
<tr>
<td>Education</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Our work around the country reveals that these definitions account for 95-100% of all companies in a local economy. They follow the work of Michael Porter, which suggests that an industry cluster consists of a core industry as well as its supply and distribution chains. This is different from the North American Industrial Classification System (NAICS), which is essentially a listing of industries, and is more functional for our purposes.

Using this way of conceiving clusters, a cluster like Construction would not only include the companies that build homes, commercial and industrial properties, and highways and bridges, but also the companies that supply the stone for driveways, the lumber and drywall for walls, the trusses for roofs, and all of the other materials needed to build a house, as well as the realtors that sell the houses.

**DETERMINING PRIORITY CLUSTERS**

Once we have the clusters defined, prioritizing the clusters that are the best bets for economic and workforce development investments is the next task.

Our conceptual approach is primarily a demand-driven, industry-based approach. It is one that is used primarily in economic development circles. However, it offers benefits for workforce development because: (a) it bundles industries where occupations are likely to require skills that are transferable; (b) it still allows us to hone in on specific occupations that may be growing or changing/improving in nature; and (c) it makes it more likely that economic development officials will see the ultimate target industries through the same lens as workforce developers, thereby enhancing alignment. Implications for career pathways and training curriculum grow out of this analysis where the voice of the industry is loud and clear.

Local competitive advantage (location quotient, or LQ) seeks to identify those industries where the local area has certain advantages and as a result does things better than the competition around the country. Competitive advantage may result from access to raw materials, access to markets, an effective transportation system, knowledge generated in local research institutions, knowledge that is imbedded in the skills of the local workforce, or just the presence of an entrepreneur who has located in the local region. LQ alerts us to the presence of a competitive advantage but does not tell us exactly what that advantage is.

For us, competitive advantage (as measured by the location quotient statistic) is the primary metric for determining priority industries, followed by job growth projections and absolute size of employment in the industry.

Location quotient measures the concentration of employment in the industry locally relative to the concentration of employment in the industry nationally. The assumption is that an industry with a concentration above the national average (above the number “1” in our report tables) has some sort of local competitive advantage that we need to recognize and act upon. For example, in the listing below of top industry clusters and drivers in your
region, Chemicals, Rubber, and Plastics, has an LQ of 2.23, which means that the region has 2.23 times the national average of employment concentration in that industry.

The following documents that are the source of the data for this analysis (The Appendix contains all the data runs referred to in this discussion. The cover page to the Appendix explains the report structure and the general content of each report.)

- **Cluster Summary Report (Report #1 in the Appendix)**, which includes charts with the 22 clusters ranked by size and average wage, growth, shift share, and location quotient as well as a bubble chart that plots most of this information on a one-page graphic;
- **Highest Ranked Industry Report (Report #2 in the Appendix)**, which ranks the top 50 5-digit NAICS industries (industry drivers) by size and average wage, growth, shift share, and location quotient;
- A document called **Summary of Clusters and Drivers by Region (Report #3 in the Appendix)**, which aligns the driver industries under each cluster title; and
- **Occupational Report (Report #4 in the Appendix)**, which includes a chart with projected occupational openings, another chart with the Top 100 openings, and a chart that organizes the Top 100 occupations into prospective Career Pathways for occupations that are in multiple industries.
The above bubble chart for this region (also Report #1E in the Appendix) summarizes the Cluster Summary Report and location quotient, projected percentage change in employment, and size of employment in each of the 22 pre-determined industry clusters. Priority clusters can appear in any one of the first three quadrants. Bubbles representing the 22 clusters are shown on the graphic on the following page with four quadrants where:

- The upper right quadrant indicates high LQ and high projected growth;
- The upper left shows industries with high projected growth but less than average LQ;
- The lower left indicates, negative projected growth and less than average LQ.
- The lower right depicts industries with high LQ but negative growth projections. This may be the case with so-called “legacy industries”, which project as being in decline but may be large industries in terms of jobs, and may present a significant competitive advantage for the region. In South Carolina, textiles would fall into the “legacy” category.

We do the Highest Ranked Industry Report (Report #2 in the Appendix) to ensure that we recognize industry drivers (five digit NAICS code industries) that have high location quotients and rapid growth but that may show a lesser impact when they are consolidated into a cluster. Drivers point to highly competitive and rapidly growing industries that may be the essence of local competitive advantage. Matching drivers to clusters in the Summary of Clusters and Drivers by Region (See Report #3 in the Appendix) allows us to see other drivers that we may have missed in our cluster analysis.

THE UPSTATE REGION

Demographics

This Region includes 14 counties including Abbeville, Anderson, Cherokee, Edgefield, Greenville, Greenwood, Laurens, McCormick, Newberry, Oconee, Pickens, Saluda, Spartanburg, and Union.

The following table shows key demographics for the Upstate Region in comparison with the other regions and the state as a whole.

Industry Analysis

As mentioned above, for us, competitive advantage (as measured by the location quotient statistic) is the primary metric for determining priority industries, followed by job growth projections and absolute size of employment in the industry (See Reports #1D, #1B, and #1A in the Appendix).

Ranked only by projected location quotient in 2025 (number in parentheses is location quotient), the top industry clusters and drivers included (additional information can be seen in Report #3):

- Textiles (4.85)
  - Broadwoven Fabric Mills (13.75)
  - Nonwoven Fabric Mills (26.24)
  - Narrow Fabric and Schiffli Machine Embroidery Manufacturing (18.97)
  - Textile and Fabric Finishing Mills (6.60)
  - Artificial and Synthetic Fibers and Filaments Manufacturing (9.52)
  - Knit Fabric Mills (34.28)
  - Fabric Coating Mills (24.56)
  - Fiber, Yarn, and Thread Mills (6.20)
  - Carpet and Rug Mills (5.86)
  - Apparel Accessories and Other Apparel Manufacturing (7.39)

- Chemicals, Rubber, and Plastics (2.79)
  - Surface Active Agent Manufacturing (43.55)
  - Tire Manufacturing (17.36)
  - Plastics Bag and Pouch Manufacturing (12.88)
  - Plastics Packaging Film and Sheet Manufacturing (11.27)
  - Photographic Film, Paper, Plate, and Chemical Manufacturing (7.91)
  - Synthetic Dye and Pigment Manufacturing (3.65)
  - All Other Miscellaneous Chemical Product Manufacturing (5.02)
  - Carbon and Graphite Product Manufacturing (3.88)
  - Plastics Material and Resin Manufacturing (4.69)
  - Other Pressed and Blown Glass and Glassware (6.58)

- Metal and Metal Fabricating (2.30)
  - Turbine and Turbine Generator Set Units Manufacturing (27.68)
  - Power-Driven Handtool Manufacturing (33.71)
  - Fiber Optic Cable Manufacturing (26.95)
  - Household Refrigerator and Home Freezer Manufacturing (13.03)
  - Ball and Roller Bearing Manufacturing (18.97)
  - Totalizing Fluid Meter and Counting Device Manufacturing (15.06)
  - Storage Battery Manufacturing (16.63)
  - Automobile Manufacturing (13.51)
  - Fluid Power Pump and Motor Manufacturing (11.56)
  - Capacitor, Resistor, Coil, and Transformer Manufacturing (5.83)
  - Motor Vehicle Gasoline Engine and Engine Parts Manufacturing (7.06)
There are several sectors, which have a concentration of employment that is only slightly higher or slightly lower than the national average. However, they are larger sectors that are expected to generate good growth numbers over the period being examined. They need to be considered among the priority industries. They are listed below along with location quotient for the cluster and the expected job growth for the cluster and drivers for the decade ahead.

- **Retail (1.08, 6,717)**
  - Discount Department Stores (1,400)
  - Warehouse Clubs and Supercenters (1,108)
  - Home Centers (1,020)
  - Automotive Parts and Accessories Stores (602)
  - Women’s Clothing Stores (549)
- **Construction (.95; 2,718)**
  - Plumbing, Heating, and Air Conditioning Contractors (1,881)
  - Industrial Building Construction (1,154)
  - Residential Remodelers (647)
  - All Other Specialty Trade Contractors (1,001)
- **Education (1.00, 6,590)**
  - Elementary and Secondary Schools (2,845)
  - Colleges and Universities (1,996)
- **Wholesale Trade (1.00; 1,982)**
  - Wholesale Trade Agents and Brokers (1,109)
- **Logistics and Transportation (1.00; 2,838)**
  - Specialized Freight Trucking (835)
- **Health Care (.87; 18,089)**
  - Offices of Physicians (2,490)
Most of the sectors with the highest levels of employment have been accounted for above. However, there are three other sectors which are larger employers but that tend to have a high number of part-time workers in jobs that pay lower than the average in the area. They are below the national average in location quotient. For those reasons, we have excluded them from our recommendations.

- Hospitality
- Real Estate and Building Services
- Personal Services

When one includes job growth projections, the industry clusters that rise to the top (and the reason for including them) are:

- Textiles (LQ)
- Chemicals, Rubber and Plastics (LQ)
- Metal and Metal Manufacturing (LQ)
- Lumber and Wood Products (LQ)
- Food Processing (LQ)
- Business Services (which includes the fastest growing driver which is Temporary Help Services) (LQ)
- Retail (Growth)
- Construction (Growth)
- Education (Growth)
- Wholesale Trade (Growth)
- Logistics and Transportation (Growth)
- Health Care (Growth)

One of our key planning tasks involves prioritizing the clusters that will be the focus of our investment of time, funding, and programming in the near future. For that reason, we are interested in finding 4-5 clusters that will be our priorities going forward and identifying one that we will fully develop in the course of this project.

**Planning/Policy Issues to Consider**

All of the questions below were generated from the documents discussed above, and that are also available in the Appendix.
• Is there any reason for the manufacturing-related clusters to be combined into a Diversified Manufacturing cluster? (See Report #1)
• Textiles are clearly declining but what is left still has a very large LQ. Should Textiles be included? (See Report #1)
• Education is a big cluster but how does the workforce break down by career pathways? Is Education recruiting professors/teachers or is it more ancillary staff? Does it make a difference as to whether this is a priority cluster (See Report #1)?
• Should Business Services be a cluster, given that it appears to be driven by the Temporary Help Industry? (See Reports #1 and #2)
• Should Retail be included because of its tendency to grow low-skill, low-wage jobs with ill-defined career pathways? (See Report #1)
• Should Wholesale Trade and Logistics and Transportation be combines (See Report #1)?

**Occupational Considerations**

An Occupational Report (Report #4 in the Appendix), which includes a chart with projected occupational openings, another chart with the Top 100 openings, and a chart, that organizes the Top 100 occupations into prospective Career Pathways for occupations that are in multiple industries, is included in the Appendix for reference. Some of this information may be relevant as you make your cluster choices.

Ultimately, we will be interested in looking at the staffing patterns of the industry clusters that are chosen and compare them with this career pathway information as a basis for programming decisions.
APPENDIX

Index of Reports and Charts

Within this Appendix, the reader will find the raw data for this text analysis and discussion within Charts and Report as indicated below:

REPORT #1 – CLUSTER SUMMARY REPORT, which includes charts with the 22 clusters ranked by size and average wage, growth, shift share, and location quotient, as well as a bubble chart that plots most of this information on a one-page graphic:

- **Report 1B - Industry Group Growth Comparison**: Includes 2015 and 2025 jobs, the change in jobs, and the percentage change in jobs; ranked by percentage change in jobs.
- **Report 1C - Industry Group Shift Share**: Includes projected jobs change as well as a breakdown of the source of growth or decline. Competitive effect is the expected growth or decline in the region. Ranked by competitive effect.
- **Report 1D - Industry Group Location Quotient**: Includes 2015 jobs, 2015 location quotient, 2025 location quotient, and percentage change in location quotients; ranked by 2015 location quotient. Location quotient is a measure of the concentration of the industry in the local area compared to the industry nationally.
- **Report 1E - Bubble Chart** (see explanation above)

REPORT #2 – HIGHEST RANKED INDUSTRY REPORT, which ranks the top 50 5-digit NAICS industries (industry drivers) by size and average wage, growth, shift share, and location quotient:

- **Report 2A - Largest Industries**: Includes 2015 and 2025 jobs, the change in jobs, and the percentage change in jobs along with the 2015 average earnings of workers; ranked by 2015 jobs.
- **Report 2B - Highest Paying Industries**: Includes 2015 and 2025 jobs, the change in jobs, and the percentage change in jobs along with the 2015 average earnings of workers; ranked by average earnings.
- **Report 2C - Fastest Growing Jobs**: Includes 2015 and 2025 jobs, the change in jobs, and the percentage change in jobs along with the 2015 average earnings of workers; ranked by the change in jobs.
- **Report 2D - Most Competitive Industries**: Includes projected jobs change as well as a breakdown of the source of growth or decline. Competitive effect is the expected growth or decline in the region. Also, includes 2015 average earnings of workers. Ranked by competitive effect.
• **Report 2E - Highest Industry Cluster Industries**: Includes 2015 and 2025 jobs, percentage change, 2015 location quotient, 2025 location quotient, and percentage change in location quotients as well as average earnings of workers; ranked by 2015 location quotient. Location quotient is a measure of the concentration of the industry in the local area compared to the industry nationally.

**REPORT #3 – SUMMARY OF CLUSTERS AND DRIVERS BY REGION**, which aligns the driver industries under each cluster title.

**REPORT #4 – OCCUPATIONAL REPORT**, which includes a chart with projected occupational openings, another chart with the Top 100 openings, and a chart which organizes the Top 100 occupations into prospective Career Pathways for occupations that are in multiple industries:

- **Report 4A -- Projected Occupational Openings**: Includes SOC code and description, 2015 and 2025 jobs, the change in jobs, percentage change, average hourly earning, and openings; ranked by openings.
- **Report 4B -- Top 100 Openings**: Includes SOC code and description, 2015 and 2025 jobs, the change in jobs, percentage change, average hourly earning, and openings; ranked by openings.
- **Report 4C -- Career Pathways**: Includes SOC code and description, 2015 and 2025 jobs, the change in jobs, percentage change, average hourly earning, and openings; ranked by openings within categories that group jobs into pathways by wage and skill progression.

REPORT #3 – SUMMARY OF CLUSTERS AND DRIVERS BY REGION

Ranked only by projected location quotient in 2025 (number in parentheses is location quotient), the top industry clusters and drivers included:

- **Textiles (4.85)**
  - Broadwoven Fabric Mills (13.75)
  - Nonwoven Fabric Mills (26.24)
  - Narrow Fabric and Schiffli Machine Embroidery Manufacturing (18.97)
  - Textile and Fabric Finishing Mills (6.60)
  - Artificial and Synthetic Fibers and Filaments Manufacturing (9.52)
  - Knit Fabric Mills (34.28)
  - Fabric Coating Mills (24.56)
  - Fiber, Yarn, and Thread Mills (6.20)
  - Carpet and Rug Mills (5.86)
  - Apparel Accessories and Other Apparel Manufacturing (7.39)

- **Chemicals, Rubber, and Plastics (2.79)**
  - Surface Active Agent Manufacturing (43.55)
  - Tire Manufacturing (17.36)
  - Plastics Bag and Pouch Manufacturing (12.88)
  - Plastics Packaging Film and Sheet Manufacturing (11.27)
  - Photographic Film, Paper, Plate, and Chemical Manufacturing (7.91)
  - Synthetic Dye and Pigment Manufacturing (3.65)
  - All Other Miscellaneous Chemical Product Manufacturing (5.02)
  - Carbon and Graphite Product Manufacturing (3.88)
  - Plastics Material and Resin Manufacturing (4.69)
  - Other Pressed and Blown Glass and Glassware (6.58)

- **Metal and Metal Fabricating (2.30)**
  - Turbine and Turbine Generator Set Units Manufacturing (27.68)
  - Power-Driven Handtool Manufacturing (33.71)
  - Fiber Optic Cable Manufacturing (26.95)
  - Household Refrigerator and Home Freezer Manufacturing (13.03)
  - Ball and Roller Bearing Manufacturing (18.97)
  - Totalizing Fluid Meter and Counting Device Manufacturing (15.06)
  - Storage Battery Manufacturing (16.63)
  - Automobile Manufacturing (13.51)
  - Fluid Power Pump and Motor Manufacturing (11.56)
  - Capacitor, Resistor, Coil, and Transformer Manufacturing (5.83)
  - Motor Vehicle Gasoline Engine and Engine Parts Manufacturing (7.06)
  - Relay and Industrial Control Manufacturing (8.38)
  - Cutting Tool and Machine Tool Accessory Manufacturing (8.38)
  - Packaging Machinery Manufacturing (6.38)
  - Railroad Rolling Stock Manufacturing (5.78)
  - Speed Changer and Industrial High-Speed Drive Manufacturing (4.96)
  - Residential Electric Lighting Fixture Manufacturing (8.35)
  - Motor Vehicle Steering and Suspension Components Manufacturing (5.33)
  - Other Communication and Energy Wire Manufacturing (5.39)
  - Motor Vehicle Metal Stamping (5.19)
There are several sectors, which have a concentration of employment that is only slightly higher or slightly lower than the national average. However, they are larger sectors that are expected to generate good growth numbers over the period being examined. They need to be considered among the priority industries because of their contribution to job growth. They are listed below along with location quotient for the cluster and the expected job growth for the cluster and drivers for the decade ahead.

- Retail (1.08, 6,717)
  - Discount Department Stores (1,400)
  - Warehouse Clubs and Supercenters (1,108)
  - Home Centers (1,020)
  - Automotive Parts and Accessories Stores (602)
  - Women’s Clothing Stores (549)
- Construction (.95; 2,718)
  - Plumbing, Heating, and Air Conditioning Contractors (1,881)
  - Industrial Building Construction (1,154)
  - Residential Remodelers (647)
  - All Other Specialty Trade Contractors (1,001)
- Education (1.00, 6,590)
  - Elementary and Secondary Schools (2,845)
  - Colleges and Universities (1,996)
- Wholesale Trade (1.00; 1,982)
  - Wholesale Trade Agents and Brokers (1,109)
- Logistics and Transportation (1.00; 2,838)
  - Specialized Freight Trucking (835)
- Health Care (.87; 18,089)
  - Offices of Physicians (2,490)
  - Nursing Care Facilities (1,677)
  - Hospitals (Local Government) (1,661)
