

## Juniper Duggal - 39

As a material handler, I am the link between shipping and receiving. I track what's coming in and what's going out. I move boxes and materials to their designated areas to facilitate the workflow process throughout the warehouse. And I'm fortunate to work with a great team!

Even with such a busy time of year, I like being the one to ensure things get to their respective homes. Whether it's coming from large companies or mom-and-pop shops, I believe that every package should be treated with care, as if it were my own — no one wants to be the person who doesn't receive their package in good condition.
